

SEMI-AUTOMATIC WELDING MACHINE → FOCUS

Square and rectangular shaped bodies can be produced too

 Hourglass rolls calibration crown for topo quality process

 Compact dimensions with on board control cabinet

 Mercury free welding rollers

 Z bar to control overlap

 Easy loading/uploading

SEMI-AUTOMATIC WELDING MACHINE → TECHNICAL DATA

Technical data may change without further notice

Custom versions available on demand

TECHNICAL DATA	S.M.B 120 SEMI-AUTOMATIC WELDING MACHINE
Bodies diameter	mm. 280 - 600
Bodies height	mm. 270 - 1100
Sheet Thickness	mm. 0,5 - 1,5
Overlap	mm. 1,2 - 2,5
Output rate (drums/h)	depending sheet specs and operator skill
Welding speed (mt.1')	6 - 10
New external electrode rollers diameter	mm Ø 300
Welding material conditions	Clean and non oxidated black steel
Machine dimensions	mm. 4500 x 1200 x 600
Machine weight	Kg. 4.500
